

Press Release

FOR IMMEDIATE RELEASE

Path Master becomes Global Traffic Technologies' newest dealer in four Midwestern States.

ST. PAUL, Minnesota – September 22, 2020 – Global Traffic Technologies (GTT) has added Path Master, Inc. as its newest regional distributor of traffic control equipment in Ohio, Western Pennsylvania, Kentucky and West Virginia.

Founded in 1976 and based outside Cleveland, Path Master provides traffic controls to nearly 70% of the intersections in the state of Ohio.

Path Master owner and President Randy Van Scoy believes the partnership exemplifies Path Master's commitment to collaborate with companies that share its dedication to providing state-of-the-art equipment and technology, along with first-class customer service.

"This is the culmination of years of hard work and hope to bring two 'best of market' companies together for the benefit of their great customer bases," Van Scoy said. "I am excited about the immediate opportunities and look to the future potential that this relationship will offer."

"We're excited about this partnership with Path Master," said Jan Ruderman, GTT's senior vice president of sales. "They have a proven track record of success in the Ohio Valley region, which we believe has untapped potential for us, and almost as importantly, they share our vision for promoting the transition to a software-based cloud solution in support of the connected vehicle evolution."
